Our Cover

ARRL Field Day is fast approaching — June 24 – 25! Whether you've planned the weekend as an opportunity for outreach, time for training, just plain fun, or some combination of these, there are innumerable ways to get set up and on the air. As just one example, here's Pete Marks's, K2PLM, "rolling ham shack" out in Lincoln National Forest in Alamogordo, New Mexico for last year's Field Day. Pete's trailer was built with ham radio in mind, and is equipped with a 160 W solar panel, a 1000 W dc-to-ac inverter, and 210 Ah of battery storage. It even has SO-239 connectors on the exterior and interior. This issue features our annual Field Day Guide that you can pull out and take to your Field Day site, so you have resources like a Section list and bonus point worksheet close at hand.
