

W1AW Daily Digital Bulletin Schedule

W1AW currently sends digital bulletin using 45.45 Baud Baudot, PSK in BPSK31 mode and MFSK16 in a revolving schedule. Depending on the length of a bulletin, all three modes may or may not be used on any particular day.

The modes used in a bulletin transmission are indicated at the beginning of the transmission using the first initial mode. For example, on Wednesday - if two modes are to be used - then the callup will be with MFSK16. The bulletin will follow first using MFSK16 then immediately followed by Baudot.

A sample callup is as follows:

Calling all Radio Amateurs. Calling all Radio Amateurs.

This is W1AW in Newington, CT.

Calling all Radio Amateurs. Calling all Radio Amateurs.

This is W1AW in Newington, CT.

An official bulletin transmission follows using MFSK16, followed immediately by 45.45 Baud Baudot.

This is W1AW

The following is the standard schedule (current as of 01/01/2012):

MONDAY:

Baudot, BPSK31, MFSK16

TUESDAY:
